The specific objective of the funding awarded on 8/12/20 (\$1,573,155) is to assemble a team including an eight-state consortium for a centralized, national data resource to uncover treatment options for COVID-19 patients. This funding allows the WVCTSI to work with Delaware, Louisiana, Maine, Mississippi, Nebraska, Oklahoma, Rhode Island and WV in compiling a large granular dataset that can examine associations of improved outcomes with various treatments. Patient registry data is utilized by scientists to assess health outcomes for a population. Specifically, the NIH is currently looking at the best treatment regimens to minimize mortality across different patient populations. The consortium will feed into the National COVID Cohort Collaborative, the national COVID data source being developed by the NIH.</p>

Community Development Block Grant (CDBG) - State	7/1/2020	Direct Allocation of Nonentitlement WVDO	\$14,258,806.00			CDBG funds local community development activities with the stated goal of providing affordable housing, anti-poverty programs, and infrastructure development. CDBG, like other block grant programs, differ from categorical grants, made for specific purposes, in that they are subject to less federal oversight and are largely used at the discretion of the state and local governments and their subgrantees. The scope and objectives of the CDBG program enable activities that may support state and local responses to the COVID-19 pandemic. Some U.S. localities have announced efforts to support community services and small businesses with existing CDBG funds. For example, grantees might consider reprogramming existing CDBG funds or designating future funds as part of long-term social welfare and economic development recover efforts. Grantees may use Community Development Block Grant (CDBG) funds for a range of eligible activities that prevent and respond to the spread of infectious diseases such as the coronavirus disease 2019 (COVID-19) such as: (1) Buildings and Improvements including Public Facilities (2) Assistance to businesses such as special Economic Development Assistance (3) Provision of New or Quantifiably Increased Public Services (4) Planning, Capacity Building, and Technical Assistance

The program was repealed in 1991 and no new projects are authorized for development. Assistance is limited to properties previously rehabilitated pursuant to a housing assistance payments (HAP) contract between an owner and a Public Housing Agency (PHA). The moderate rehabilitation (Mod Rehab) program was designed in 1978 to be an expansion of the rental certificate program. The rental certificate program was initially amended to permit moderate levels of rehabilitation to upgrade and preserve the nation's housing stock.</p> <p>Although the rental certificate program stimulated maintenance of the housing stock (with investment by owners averaging \$1500 in repairs to meet the program housing quality standards), it was estimated that at least 2.7 million rental units had deficiencies requiring a moderate level of upgrading; approximately 85% of these units were in buildings of fewer than 20 units. The Mod Rehab program was designed to upgrade that housing stock.</p>

Federal Reserve System, Main Street Lending Program (MSLP)	8/28/2020	Direct allocation to Summit Community Bank, Inc.		\$3,600,000.00		The Main Street Lending Program (MSLP) provides business loans to help eligible small and medium-sized companies and nonprofit organizations through the COVID-19 pandemic. The program is designed to help credit flow to small and medium-sized for-profit businesses and nonprofit organizations that were in sound financial condition before the onset of the COVID-19 crisis, but now need loans to help maintain their operations until they have recovered from, or adapted to, the impacts of the pandemic. Loans originated under the program have several features that will help borrowers facing challenges. The program offers 5-year loans, with floating rates, and principal and interest payments deferred to assist those experiencing temporary cash flow interruptions. To support a broad set of employers, loan size starts at \$250,000 and ranges up to \$300 million for some loan types. MSLP loans are not grants and cannot be forgiven. Interested borrowers will work with an eligible lender to determine if they meet the program requirements as well as the lender's own underwriting standards. The lender will determine approval for a loan. The Fed will participate in the lending by purchasing a 95% interest in the loan. The lender retains 5%. The MSLP is administered by the Federal Reserve Bank of Boston, which has established a special purpose vehicle to purchase loan participations from eligible lenders across the U.S.

U.S. Department of Veterans' Affairs - Supportive Services for Veteran Families (SSVF) Program	5/11/2020	Direct Award to WV Community Action Partnership		\$1,118,403.00		The Supportive Services for Veterans Families (SSVF) program has historically prioritized its efforts on rapidly rehousing literally homeless Veterans followed by a priority to deliver homelessness prevention services to Veteran families at imminent risk of homelessness. With the onset of the COVID-19 public health crisis, VA modified its regulatory and policy requirements to give SSVF grantees far broader flexibility in delivering SSVF services. SSVF's primary mission is to provide services and assistance that lead to permanent housing outcomes; however, given the public health crisis at hand and this infusion of resources, VA is also prioritizing other types of services that were traditionally more scarce. The following priorities and program guidelines are in effect until further notice: (1) Connect all Veterans to permanent housing, whenever possible, either via SSVF or other resources (2) Maintain enrollment for eligible Veterans so SSVF can continue to provide assistance, and re-introduce assistance should the Veteran family become at risk of housing loss (3) End unsheltered homelessness for all Veterans and ensure Veterans at risk of serious illness or death from COVID-19 are not living in congregate shelter or transitional housing settings. Veterans should not be in settings where the risk of contracting COVID-19 are high or otherwise more likely than in the general population. (4) Prevent homelessness for those Veterans at risk.

The Corporation currently provides funding to 132 independent nonprofit legal aid programs in every state, the District of Columbia, and U.S. territories. In the CARES Act, Congress appropriated \$50 million in supplemental funding to the LSC for legal aid work to prevent, prepare for, and respond to coronavirus, domestically or internationally. The funding will support LSC grantees in assisting low-income clients facing job losses, evictions, domestic violence and other problems stemming from the pandemic. LSC awarded \$2.4 million for Telework Capacity Grants to 126 of its grantees. This funding will support new equipment, services and related expenses needed for legal services organizations to improve or expand telework capabilities to better serve low-income populations. LSC is also providing technical assistance to many grantees to enhance their ability to work and provide services remotely. LSC awarded more than \$47 million to its grantees to address the critical civil legal needs confronting many low-income families. In order to allocate these funds to the areas of the country most affected by COVID-19, LSC used unemployment insurance data in conjunction with the poverty-population data to distribute funds to all 132 grantees.
